

Augmented_function

```
graph BT; Augmented_Bessel --> Augmented_function; Augmented_Hankel --> Augmented_function;
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'Augmented_function'. Below it, a horizontal line connects two boxes: 'Augmented_Bessel' on the left and 'Augmented_Hankel' on the right. A vertical arrow points upwards from the center of this horizontal line to the bottom of the 'Augmented_function' box, indicating that both 'Augmented_Bessel' and 'Augmented_Hankel' inherit from 'Augmented_function'.
